

## HIGH-SPEED CUTTING STRIPING MACHINE TM-260

### Product Description

**Model: TM-HS-260.**

### Features

- Suitable for Cutting, Head-stripping and Tail-stripping of single-strand and multi-strand wire
- Can process wires in such industries as electronic products, electric appliance, toys and auto motorcycle parts, etc.
- With a microcomputer-controlled very clean designed mechanism, it cuts and strips wire automatically.
- Various cutting style and programmable length and distance can suit any wire assembly needed

## Specification

<b>Model</b>	TM-HS 260
<b>Weight</b>	30-31KG
<b>Overall Dimensions</b>	390*350*235mm
<b>Power</b>	160-300W
<b>Mode of display</b>	LCD LIQUID CRYSTAL DISPLAY SCREEN
<b>Cutting Length</b>	1mm-9999mm
<b>Cutting Tolerance</b>	$\leq 0.002 * L(\text{CUTTING LENGTH})$
<b>Stripping Length</b>	HEAD 0-35mm, TAIL 0-10mm
<b>Cutting Cross-Sectional L Area Of Wire Core</b>	0.1-3.0mm <sup>2</sup>
<b>Maximum Diameter of Conduit Pipe</b>	11
<b>Middle Stripping</b>	10 PLACES OF STRING
<b>Material of Knife</b>	TUNGSTEN STEEL
<b>Stripping Speed</b>	3000-80000PCS/H
<b>Mode of driving</b>	FOUR-WHEELED DRIVE
<b>Adjusting Speed</b>	0 SLOWEST, 9 FASTEST
